Purushotham Gaddam

### **President's Message**

తెలంగాణ రాష్ట్ర ఆవిర్భావ దినోత్సవ శుభాకాంక్షలు

Telangana Development Forum USA is now 22 Years old and since its inception it has been always at the forefront in educating people with information, believing strongly that an informed citizen will make the right choices about an issue at hand.

Telangana Development Forum's Greatest Achievement was to assist in attaining 'independence or freedom' for Telangana in 2014. Many felt happy to be part of that movement for over a decade or more. Telangana will prosper with better utilization of its people and its resources with better education and skills.

Covid-19 pandemic devastated our state and caused many to grieve with irreparable loss of near and dear. It is very difficult for any Government to address the needs in these unprecedented times and so TDF USA extended its helping hand to support the need and initiated the "2021 Covid-19 Relief Fund" with a target amount of \$250,000.00. It is a huge task and we strongly believe that collectively we shall achieve this task.

We would like to present to our esteemed members, supporters, well-wishers, and all the TDF Family and fraternity that Phase-I of Covid-19 Relief efforts resulted in supplying "medical grade" 5L and 10L Oxygen Concentrators, providing 10 Bed Oxygen setup at Maddur Hospital, Narayanpet District, and providing manual and Auto-cleaning scrubbers for Suryapet Hospital.

Medical grade 10L Oxygen concentrators are going to be delivered soon to Adilabad, Nirmal, Komaram Bheem Asifabad, Narayanpet, Suryapet, Khammam, Vikarabad, MBNR, Karimnagar, Medak districts' rural district and Mandal hospitals and CHCs, and to PHCs and Covid isolation centers (5L medical grade OCs).

On this special day of Telangana State Formation, we would like to launch our Phase-II Initiatives where our ground-level volunteers are working hard to set up Covid-19 Testing camps at Nirmal and Bhainsa towns and later take them to its rural villages.

Phase-II also covers Covid-19 essential protection supplies distribution in Adilabad, Nirmal, Komaram Bheem Asifabad, Rajanna Sircilla, Narayanpet, Suryapet, Medchal, Khammam, Mahabubnagar, Siddipet, Hyderabad, Mahabubabad, Karimnagar, Nagarkurnool, Wanaparthy, Medak districts' rural areas with a motive to Empower, Educate and Enlighten the people to contain the virus locally. TDF-USA and India teams along with their Volunteers and regional coordinators are committed to conducting these awareness programs and hence request your helping hands.

Please join us to bring Telangana back to its state of normalcy.

TDF-USA always welcomes people who bring passion, intellect, insight, experience, and resources to the table to move our organization forward

JAI TELANGANA !

Sincerely Yours,

Kavita Challa

President, TDF-USA
